

🎧 Chinook Album Manager – User Manual

For Chinook Employees

Manage your music with ease - no technical knowledge required

What This App Does

This web application allows Chinook employees to manage the music albums for sale in a simple intuitive way. You can:

- View the full album catalogue
- Add a new album
- Edit existing albums, track and artist details
- Delete albums
- Search for albums, artists or tracks
- Manage track names and prices under each album

1. Open the Application

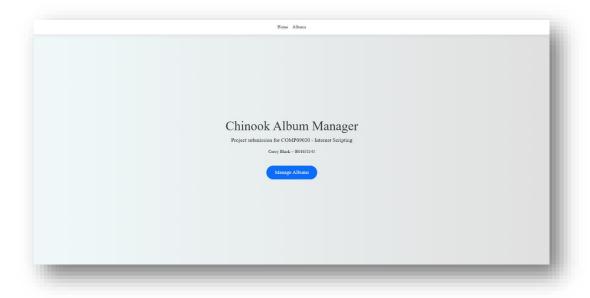

Launch the app in your browser by going to:

http://localhost:xxxx

Replace xxxx with the port number shown when you start the application (Keep in mind you should have the *project* folder open. Not the *courseworkTwo* folder)

A Home Page

When the app opens, you'll see the Home Page. Click the blue Manage Albums button to begin.

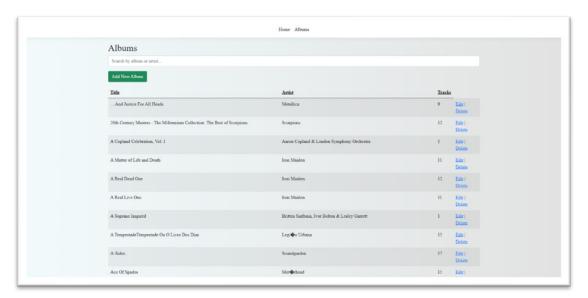

Albums Page

This is your main dashboard.

Here you can:

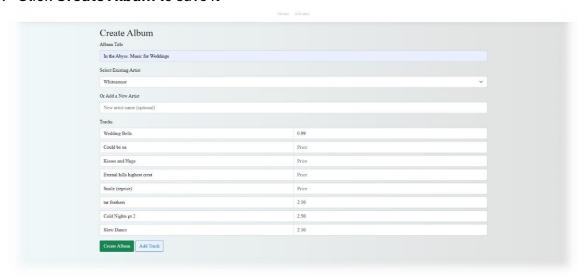

- View a list of all albums
- Use the **search bar** at the top to filter by album title or artist
- Click Edit or Delete next to any album

+ Add a New Album

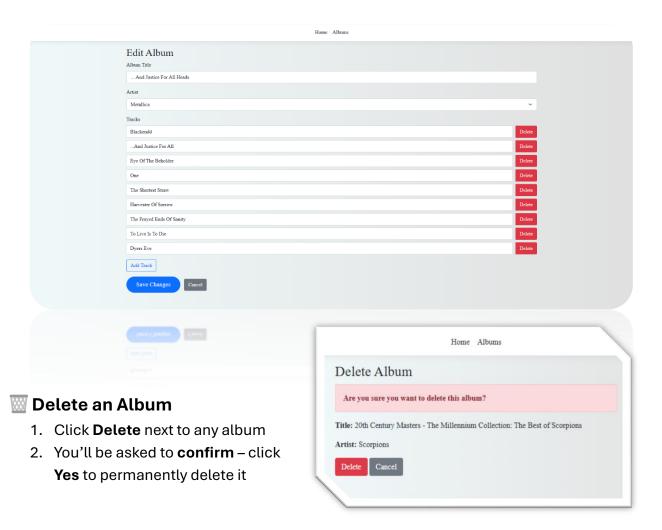

- 1. Click **Add New Album** (green button)
- 2. Enter the Album Title
- 3. Select an existing artist or enter a new artist name
- 4. Add one or more tracks:
 - Enter a track name
 - Enter a price (optional)
 - Click Add Track to add more

5. Click Create Album to save it

Edit an Album

- 1. Click Edit next to the album you want to update
- 2. Change the album title or artist
- 3. Edit, delete, or add tracks
- 4. Click Save Changes to update the album

Notes

- You can add tracks during creation or later in the edit page
- If you enter a new artist, you do not need to select an existing artist
- Make sure to click Save Changes after editing

○ Need Help?

If anything doesn't work as expected, restart the app or send an email to B01651145@studentmail.uws.ac.uk
